

MAKE SAFER THE ROAD TO SANTIAGO WITH ALERTCOPS

STEP 1: INSTALL ALERTCOPS APP

Alertcops is available to download on [Google Play](#) and [AppStore](#).

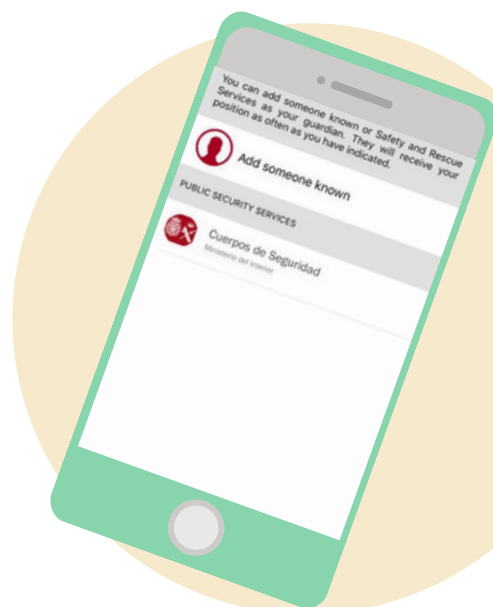

To start using the app, you must verify your phone number and accept app permissions.

From now you can send alerts about risk situations and, depending on the area you are in, you may receive citizen security warnings.

STEP 2: SUSCRIBE TO CAMINO DE SANTIAGO GUARDIAN

Adding the Public Security Service Camino de Santiago Guardian you will be able to share your location with Law Enforcement Agencies.

In case of an emergency, the rescue will be faster and more accurate.

YOU HAVE ALREADY YOUR GUARDIAN ACTIVATED!

¡BUEN CAMINO!
